WIE IEEE SPIT studentâ€™s chapter 2017-18 commenced the academic year with an informative talk on 9th August 2017.

Interviews can be intimidating and hence we need to be prepared to face challenges that can define our future. Hence, WIE-IEEE kept a talk to help students across all departments facing such challenges. Prof. Meera, a PhD in phonetics, who has 14 years of experience in training students in business English and literature, rendered the talk. She was also a visiting faculty in the MCA Department.

The talk covered every step of an interview- from appearance to how to overcome tough situations.

It covered last minute tips and tricks and the minute details, which can help the interviewee, stand out. She spoke about the different kinds of interviews and about etiquettes that one must learn to impress the interviewer.

It was a very useful talk and all the students benefitted greatly by Dr Meeraâ€™s words.
